[sruehr.github.io](https://sruehr.github.io)  
[@sophieruehr](https://twitter.com/sophieruehr)

## EDUCATION

2020-present **University of California Berkeley** Berkeley, CA

*Ph.D. Candidate in Environmental Science, Policy, & Management*

Coadvised by Trevor Keenan & Manuela Girotto

My dissertation focuses on the coupling of carbon and water cycles in terrestrial ecosystems using remote sensing, eddy covariance flux tower, and machine learning methodologies, with a focus on solar-induced fluorescence, drought and agricultural systems.

2014-2018 **Yale University** New Haven, CT

*Bachelor of Science, Geology & Geophysics (cum laude)*

For my senior honors thesis, I used surface energy balance theory to partition the observed oasis effect between irrigated cropland and surrounding desert.

## RESEARCH & PROFESSIONAL EXPERIENCE

2022-present **Sponsored Projects for Undergraduate Research Mentor** Berkeley, CA

I mentor undergraduate students on research projects, which have included biomass estimation using remote sensing image classification over an oak savanna, bonsai tree 3D modeling, and science communication on social media.

2020-present **D-Lab Consultant** Berkeley, CA

At the UC Berkeley D-lab, I consult graduate students across campus on questions related to data science, statistical methods and coding in R and Python.

2020-2021 **Be a Scientist Mentor** Berkeley, CA

I mentored five 7th grade students on semester-long research experiments.

2019-2020 **Provincetown Independent Reporter** Provincetown, MA

As a reporter for a weekly newspaper, I covered a range of topics, including environmental science, policing, and immigration, writing 3-4 published articles each week.

2018-2019 **Yale University Huang Fellow** Port Vila, Vanuatu

I conducted a year-long independent research project on the historic impacts of climate change, sea level rise, and intensifying cyclones in Vanuatu, a Pacific Island Nation, for use in paleo-climatology research.

Summer 2017 **Woods Hole Oceanographic Institution Fellow** Woods Hole, MA

I analyzed paleoclimatic hurricane dynamics estimated from sediment cores to determine deposition dynamics in a coastal pond.

## MENTORING & TEACHING

- |             |   |
|-------------|---|
| Spring 2024 | Ecosystem science, ESPM 111 (graduate student instructor)   |
| 2023-4      | Adam Rashid, UC Berkeley graduate (mentor)                  |
| 2022-4      | Megan Hur, UC Berkeley undergraduate student (mentor)       |
| 2022-3      | Tyler Goldstein, UC Berkeley undergraduate student (mentor) |

## SERVICE

- |              |   |
|--------------|---|
| 2022-present | UC Berkeley College of Natural Resources LGBTQ+ Coalition |
| 2021-present | AmeriFlux Diversity, Equity & Inclusion Committee member  |
| 2020-present | UC Berkeley ESPM Graduate Diversity Council member        |

## OUTREACH & JOURNALISM

- 2023 [FLUXNET blog](#)
- 2022 [Keenan Group TikTok](#)
- 2022 [AmeriFlux 25 years data visualization tool](#)
- 2022 [Berkeley Science Review](#)
- 2019, 2020 [Provincetown Independent](#)
- 2019 [InsideClimate News](#)
- 2019 [WOMR Cape Cod's Outermost Radio](#)
- 2016, 2018 [Provincetown Banner](#)

## FELLOWSHIPS

### 2022 **FLUXNET Secondment**

FLUXNET

*Funding for a 6-week research visit to CREAM, Barcelona, Spain*

### 2022 **Future Investigators in NASA Earth and Space Science and Technology**

National Aeronautics and Space Administration (NASA)

*Three years of graduate funding*

### 2020 **Carol Baird Fieldwork Grant**

University of California Berkeley

*In support of fieldwork at UC reserve sites*

### 2020 **Environmental Forum Starter Grant**

Dept of Environmental Science, Policy and Management, University of California Berkeley

*In support of conference attendance and dissertation research*

### 2020 **Achievement Rewards for College Scientists Fellowship**

ARCS Northern California Chapter

*Financial support for first two years of graduate study*

### 2018 **Parker Huang Undergraduate Travel Fellowship**

Yale University

*In support of independent research in Vanuatu*

### 2017 **Karen Von Damm 1977 Fellowship**

Yale University Dept. of Geology & Geophysics

*In support of senior honors thesis field research in China*

### 2017 **Summer Student Fellowship**

Woods Hole Oceanographic Institution

*In support of hurricane paleoclimatology research*

### 2015 **Michael Coe Fieldwork Fund**

Council on Archaeological Studies at Yale

*In support of archaeology research in Israel*

## AWARDS

2021 **First Place: Science/Technology Reporting**

*New England Newspaper Association*

2021 **First Place: Health Reporting**

*New England Newspaper Association*

2018 **Hammer Prize**

*Yale University Department of Geology & Geophysics*

## WORKSHOPS

2024 **Center for Climate Sciences Summer School** Jet Propulsion Lab & CalTech, CA  
*Week-long course on remote sensing and climate modeling*

2024 **Spring Teaching Conference** UC Berkeley, CA  
*Participation in a one-day workshop on teaching, ethics, and inclusion*

2024 **FieldFutures Harassment Prevention Training** UC Berkeley, CA  
*Participation in a full-day workshop on sexual harassment prevention in fieldwork*

2024 **DroneCamp** CSU Monterey Bay, CA  
*5-day field course on mission planning, drone piloting, photogrammetry, and data processing*

2022 **AmeriFlux Field Safety Workshop**  
*Leading a one-day workshop for safety and inclusivity in field work*

2022 **FluxCourse** Nederland, CO  
*Two-week field course on eddy covariance flux data and modeling*

## REVIEWING

2024 Nature Communications Earth & Environment

2024 Agricultural & Forest Meteorology

2024 Hydrology

2024 Nature Communications

2024 Earth's Future

2023 AGU Advances

2023 Proceedings of the National Academy of Sciences

2023 Geophysical Research Letters

2021 Journal of Arid Environments

## SKILLS

<b>Languages</b>	Bislama (advanced), French (advanced), Italian (basic)
<b>Computer languages</b>	Python, R, MATLAB, Bash, Git
<b>Software</b>	LaTeX, Wordpress, GIS, ENVI, RStudio, Google Earth Engine
<b>Field work</b>	Hyperspectral imager deployment, snow depth and water equivalent, GPS survey, sediment core collection and processing, tree diameter measurement, in situ leaf-level physiology measurements, anthropological research methods, eddy covariance flux tower deployment

## ORAL PRESENTATIONS

- Ruehr, S. Evidence and attribution of the land carbon sink's historic enhancement (Fall 2023). EEBIOMASS virtual workshop. Max-Planck Institute for Biogeochemistry, Jena, Germany.
- Ruehr, S. Groundwater drought decreases carbon fixation in a semi-arid oak savannah (Fall 2023). CREAM, Barcelona, Spain.
- Ruehr, S., Giroto, M., Verfaillie, J., Baldocchi, D., Keenan, T.F. Groundwater drought decreases carbon fixation in a semi-arid oak savannah (Fall 2022). GC55A-03. AGU fall meeting, Chicago, IL, USA.
- Ruehr, S., Seibert, P., Gerlein-Safdi, C., Falco, N., Wu, Y., Chou, C., Keenan, T.F. Hyperspectral imagery illuminates drivers of solar-induced fluorescence across landscapes (Fall 2022). B43C-04. AGU fall meeting, Chicago, IL, USA.
