EDUCATION

2020-present **University of California Berkeley** Berkeley, CA

Ph.D. Candidate in Environmental Science, Policy, & Management

Coadvised by Trevor Keenan & Manuela Girotto

My dissertation focuses on the coupling of carbon and water cycles in terrestrial ecosystems using remote sensing, eddy covariance flux tower, and machine learning methodologies, with a focus on solar-induced fluorescence, drought and agricultural systems.

2014-2018 **Yale University** New Haven, CT

Bachelor of Science, Geology & Geophysics (cum laude)

For my senior honors thesis, I used surface energy balance theory to partition the observed oasis effect between irrigated cropland and surrounding desert.

RESEARCH & PROFESSIONAL EXPERIENCE

2022-present **Sponsored Projects for Undergraduate Research Mentor** Berkeley, CA

I mentor undergraduate students on research projects, which have included biomass estimation using remote sensing image classification over an oak savanna, bonsai tree 3D modeling, and science communication on social media.

2020-present **D-Lab Consultant** Berkeley, CA

At the UC Berkeley D-lab, I consult graduate students across campus on questions related to data science, statistical methods and coding in R and Python.

2020-2021 **Be a Scientist Mentor** Berkeley, CA

I mentored five 7th grade students on semester-long research experiments.

2019-2020 **Provincetown Independent Reporter** Provincetown, MA

As a reporter for a weekly newspaper, I covered a range of topics, including environmental science, policing, and immigration, writing 3-4 published articles each week.

2018-2019 **Yale University Huang Fellow** Port Vila, Vanuatu

I conducted a year-long independent research project on the historic impacts of climate change, sea level rise, and intensifying cyclones in Vanuatu, a Pacific Island Nation, for use in paleo-climatology research.

Summer 2017 **Woods Hole Oceanographic Institution Fellow** Woods Hole, MA

I analyzed paleoclimatic hurricane dynamics estimated from sediment cores to determine deposition dynamics in a coastal pond.

MENTORING & TEACHING

- | | |
|-------------|---|
| Spring 2024 | Ecosystem science, ESPM 111 (graduate student instructor) |
| 2023-4 | Adam Rashid, UC Berkeley graduate (mentor) |
| 2022-4 | Megan Hur, UC Berkeley undergraduate student (mentor) |
| 2022-3 | Tyler Goldstein, UC Berkeley undergraduate student (mentor) |

SERVICE

- | | |
|--------------|---|
| 2022-present | UC Berkeley College of Natural Resources LGBTQ+ Coalition |
| 2021-present | AmeriFlux Diversity, Equity & Inclusion Committee member |
| 2020-present | UC Berkeley ESPM Graduate Diversity Council member |

OUTREACH & JOURNALISM

- 2023 [FLUXNET blog](#)
- 2022 [Keenan Group TikTok](#)
- 2022 [AmeriFlux 25 years data visualization tool](#)
- 2022 [Berkeley Science Review](#)
- 2019, 2020 [Provincetown Independent](#)
- 2019 [InsideClimate News](#)
- 2019 [WOMR Cape Cod's Outermost Radio](#)
- 2016, 2018 [Provincetown Banner](#)

FELLOWSHIPS

2022 **FLUXNET Secondment**

FLUXNET

Funding for a 6-week research visit to CREAM, Barcelona, Spain

2022 **Future Investigators in NASA Earth and Space Science and Technology**

National Aeronautics and Space Administration (NASA)

Three years of graduate funding

2020 **Carol Baird Fieldwork Grant**

University of California Berkeley

In support of fieldwork at UC reserve sites

2020 **Environmental Forum Starter Grant**

Dept of Environmental Science, Policy and Management, University of California Berkeley

In support of conference attendance and dissertation research

2020 **Achievement Rewards for College Scientists Fellowship**

ARCS Northern California Chapter

Financial support for first two years of graduate study

2018 **Parker Huang Undergraduate Travel Fellowship**

Yale University

In support of independent research in Vanuatu

2017 **Karen Von Damm 1977 Fellowship**

Yale University Dept. of Geology & Geophysics

In support of senior honors thesis field research in China

2017 **Summer Student Fellowship**

Woods Hole Oceanographic Institution

In support of hurricane paleoclimatology research

2015 **Michael Coe Fieldwork Fund**

Council on Archaeological Studies at Yale

In support of archaeology research in Israel

AWARDS

2021 **First Place: Science/Technology Reporting**

New England Newspaper Association

2021 **First Place: Health Reporting**

New England Newspaper Association

2018 **Hammer Prize**

Yale University Department of Geology & Geophysics

WORKSHOPS

2024 **Center for Climate Sciences Summer School** Jet Propulsion Lab & CalTech, CA
Week-long course on remote sensing and climate modeling.

2024 **Spring Teaching Conference** UC Berkeley, CA
Participation in a one-day workshop on teaching, ethics, and inclusion

2024 **FieldFutures Harassment Prevention Training** UC Berkeley, CA
Participation in a full-day workshop on sexual harassment prevention in fieldwork

2024 **DroneCamp** CSU Monterey Bay, CA
5-day field course on mission planning, drone piloting, photogrammetry, and data processing

2022 **AmeriFlux Field Safety Workshop**
Leading a one-day workshop for safety and inclusivity in field work

2022 **FluxCourse** Nederland, CO
Two-week field course on eddy covariance flux data and modeling

REVIEWING

2024 Nature Communications Earth & Environment

2024 Agricultural & Forest Meteorology

2024 Hydrology

2024 Nature Communications

2024 Earth's Future

2023 AGU Advances

2023 Proceedings of the National Academy of Sciences

2023 Geophysical Research Letters

2021 Journal of Arid Environments

SKILLS

Languages	Bislama (advanced), French (advanced), Italian (basic)
Computer languages	Python, R, MATLAB, Bash, Git
Software	LaTeX, Wordpress, GIS, ENVI, RStudio, Google Earth Engine
Field work	Hyperspectral imager deployment, snow depth and water equivalent, GPS survey, sediment core collection and processing, tree diameter measurement, in situ leaf-level physiology measurements, anthropological research methods, eddy covariance flux tower deployment

ORAL PRESENTATIONS

- Ruehr, S. Evidence and attribution of the land carbon sink's historic enhancement (Fall 2023). EEBIOMASS virtual workshop. Max-Planck Institute for Biogeochemistry, Jena, Germany.
- Ruehr, S. Groundwater drought decreases carbon fixation in a semi-arid oak savannah (Fall 2023). CREAM, Barcelona, Spain.
- Ruehr, S., Giroto, M., Verfaillie, J., Baldocchi, D., Keenan, T.F. Groundwater drought decreases carbon fixation in a semi-arid oak savannah (Fall 2022). GC55A-03. AGU fall meeting, Chicago, IL, USA.
- Ruehr, S., Seibert, P., Gerlein-Safdi, C., Falco, N., Wu, Y., Chou, C., Keenan, T.F. Hyperspectral imagery illuminates drivers of solar-induced fluorescence across landscapes (Fall 2022). B43C-04. AGU fall meeting, Chicago, IL, USA.
